to

Daniel Hauben

*In recognition of your invaluable contributions to the evolution of the cultural vitality of The Bronx. As a Bronx native and versatile and prolific artist who works in many mediums including oil paint, pastel chalk, plaster, glass and bronze, you have touched the lives of millions of New Yorkers, setting the standard for creative excellence. Although you have traveled and painted the world, you have spent 25 years lovingly capturing the unique aspects of Bronx life, using the interplay of light and shadows to accentuate the dramatic beauty of our urban landscape. On behalf of the 1.4 million residents of The Bronx, I, Adolfo Carrion, Jr. congratulate you on receiving the prestigious recognition from the Americans for the Arts, for your faceted glass panels that are installed at the Freeman Street Subway Station, which both celebrates public art in The Bronx and highlights the importance of your artistic contributions to the world.*
